

Huxlow Science College

Application for Music Tuition 2023/24

Nearly everyone enjoys music, whether by listening to it, singing, or playing an instrument. Learning to sing or play a musical instrument can greatly enrich students' lives and their education, as well as help to improve mental and physical well-being. Thankfully, following the struggles over the past few years, we are able to continue offering instrumental and vocal music lessons in school, through our partnership with Northamptonshire Music and Performing Arts Trust (NMPAT).

Lessons are offered on most instruments within the woodwind, brass and string families, and also guitar, keyboard, piano, singing and drum-kit. Through NMPAT, students are also able to access free loan of an instrument (strings, woodwind and brass).

If you would like your child to receive music tuition for the academic year 2023/24, please open the first link and read the Terms and Conditions letter, then open the second link below to complete the online form.

The closing date is Monday 26th June 2023.
